Petition to Stop the Federal Mandated Swine Flu Program

The State of _____County of _____

America was founded as a **Constitutional Republic**, a representative form of government with extremely limited powers, confined within the parameters, expressively set forth by the supreme law of the land, the Constitution itself. The **Bill of Rights** prohibits Congress from making any law respecting an establishment of religion or prohibiting the free exercise thereof and prohibits the federal government from depriving any person of life, liberty, or property, without due process of law. The Bill of Rights plays a central role in American law and government, and remains a fundamental symbol of the freedoms and culture of the nation.

We, the people of the above state and county, do not support the Federal Mandatated Experimental Swine Flu Program. We demand the right to accept or refuse the experimental swine flu vaccine for ourselves and our chidlren. We feel it is a violation of our Constitutional Rights and the Bill of Rights to be forced to inject or ingest anything into our bodies that we are not in agreement of. This is a violation of our "Religious", "Medical" and/or Phylosophical Exemptions provided to us under our individual state rights.
